Iris-setosa
Iris-versicolor
Iris-virginica

Linkage: Single
Annotation: iris
Selection: top 11 clusters

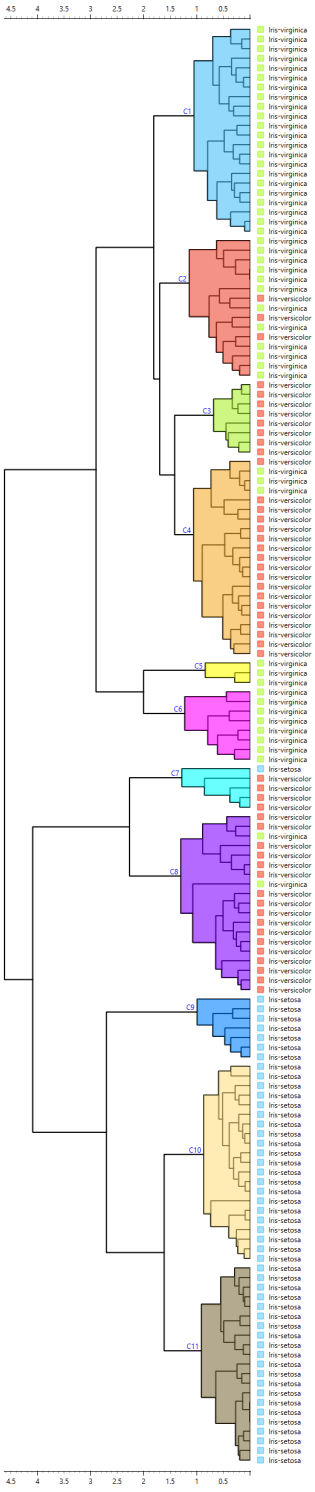

Clustering Con Linkage: Single , se aprecia un alto desbalance con grupos muy desiguales

Linkage: Average
Annotation: iris
Selection: top 11 clusters

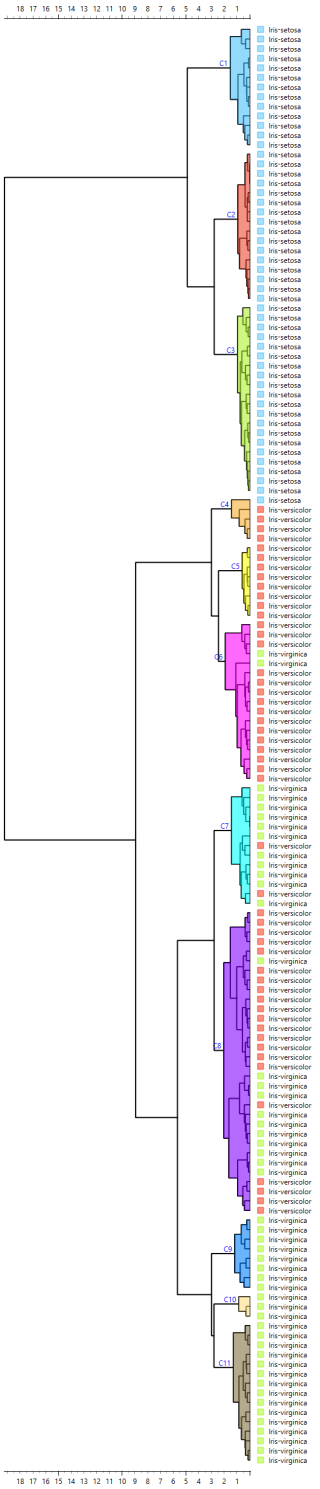

Clustering Con Linkage: Average

Linkage: Complete
Annotation: iris
Selection: top 11 clusters

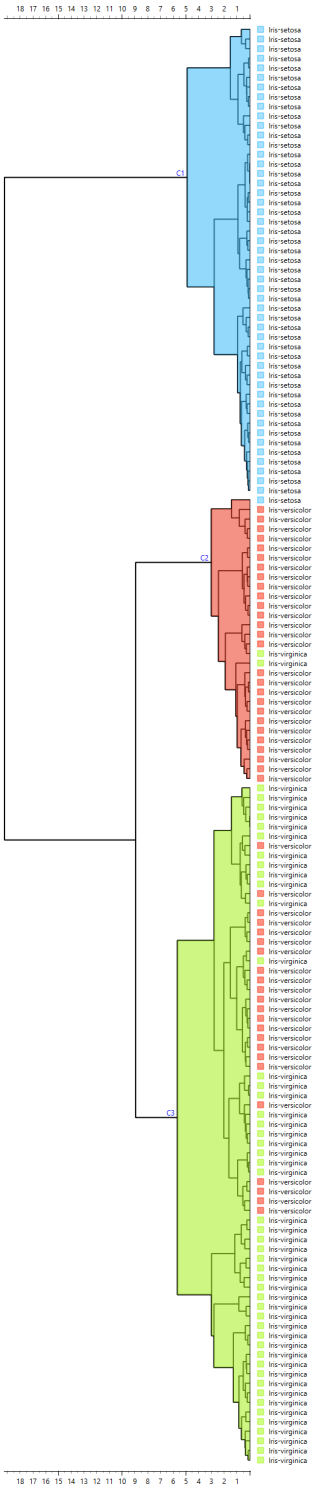

Clustering Con Linkage: Complete

Linkage: Ward
Annotation: iris
Selection: top 11 clusters

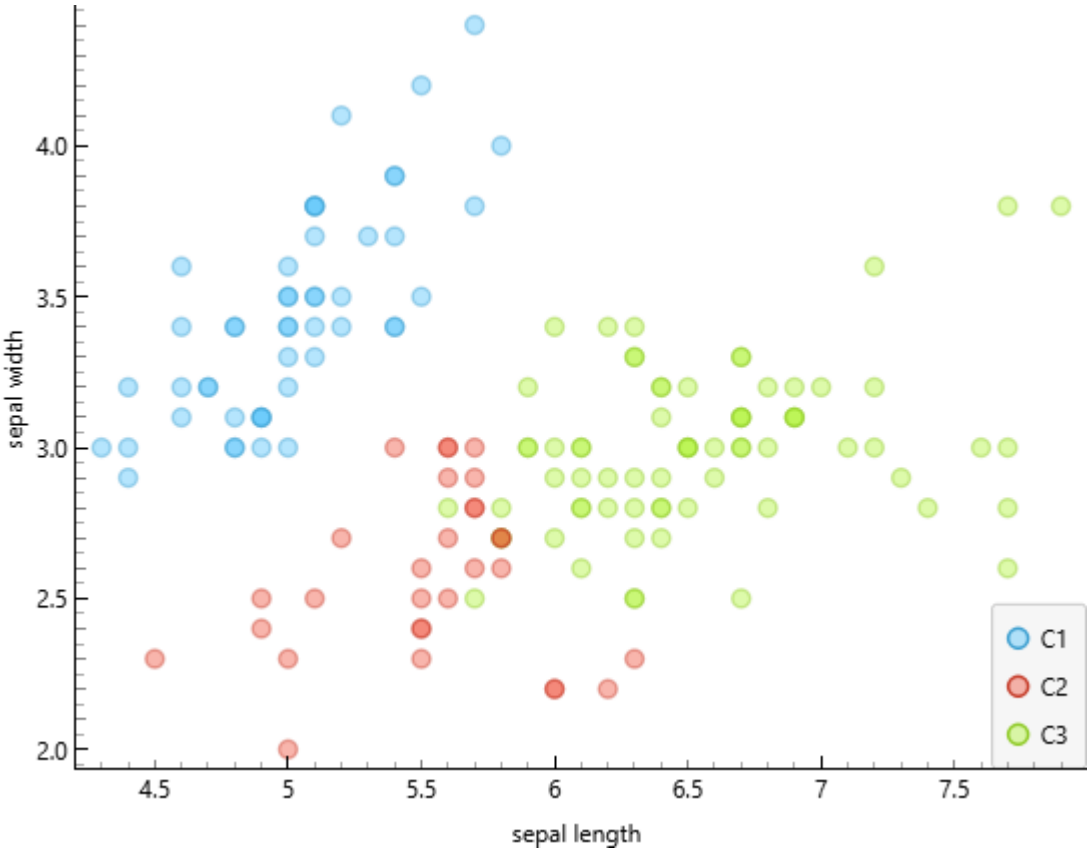

Clustering Con Linkage: Ward, visualmente parece ser el mas balanceado(Actividad 2.2)

Linkage: Ward
Annotation: iris
Selection: top 3 clusters

Linkage: Ward Con N=3

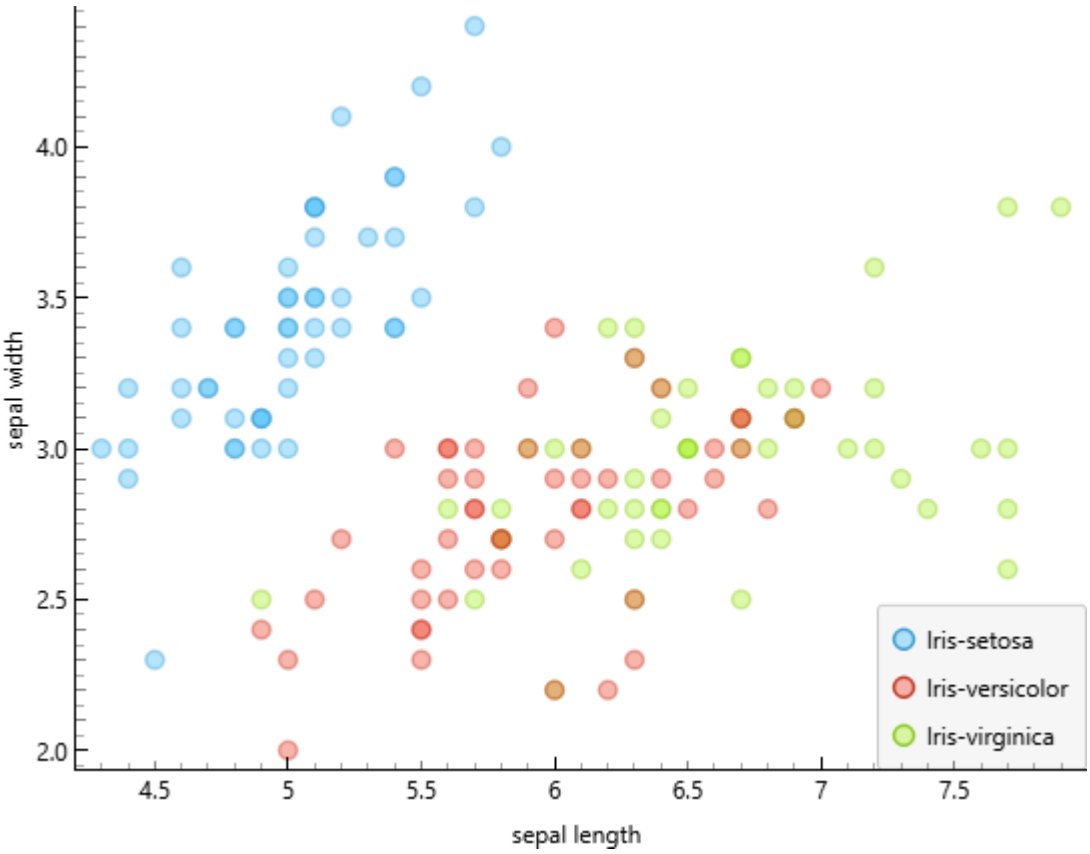

Scatter Plot Wed Nov 04 26, 11:05:26

Color: Cluster

Scatter Plot divido segun los clusters

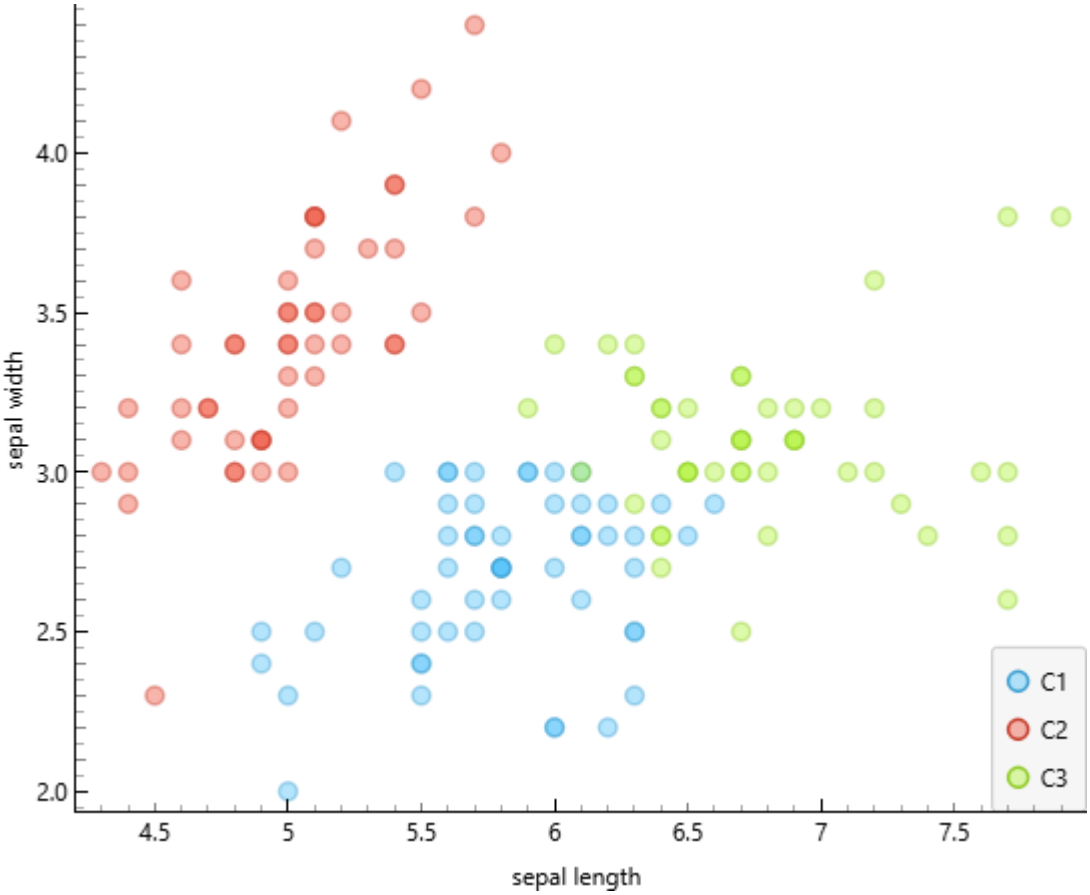

Scatter Plot Wed Nov 04 26, 11:11:44

Color: iris

Scatter Plot divido segun Iris: algunas muestras de iris-veriscolor estan muy cercanas a iris-virginica , lo cual hizo que el cluster agrupara algunos erroneamente, pero fue mas preciso con Iris-setosa fallando con solo una muestra, dado que esta muy separado de los demas grupos (Actividad 2.3)

Scatter Plot **Wed Nov 04 26, 11:26:43**

Color: Cluster

Scatter Plot k-means k=3: Falla en algunas muestras mas que el Ward, sin embargo preservan la tendencia general de los grupos
